2008~2009 Seminars

Seminar # 1: September 6, 2008

Speaker: **Lisa Murphy, The Ooey Gooley Lady®**

Topic: **Science and Art**

Lisa Murphy, B.S., has been involved with early childhood education for nearly 20 years. She has taught and worked with children in various environments including Head Start programs, kindergarten, private preschools, family childcare, park and rec centers, and group homes. She is the founder and CEO of Ooey Gooley, Inc. As the ooey gooley lady®, Lisa presents over 150 workshops each year to audiences across the country on various topics related to early childhood education, specifically how to be more play-based in the classroom. She has been featured in various publications including Child Care Business Exchange, Parents and Pre-K Today. Lisa has authored four books and has created dozens of teacher training DVD's. A highly sought after keynoter for educational conferences, Lisa uses humor and real life anecdotes to reach and engage her audiences. Lisa's standing room only seminars have become nationally known for their information, humor, inspiration and energetic delivery. Frequently asked if she has ever been a stand up comic, Lisa practices what she preaches and continues to blend the laughter with the learning! Lisa's current project is assisting educators with linking all aspects of a hands-on, play-based, Ooey Gooley® philosophy to state mandated educational standards. She is dedicated to proving that playing is, in fact, "getting them ready" for school! Lisa will be presenting three workshop sessions, "Ooey Gooley® Squishy Plop! Hands-on play for every day!", "Fizzle Bubble Pop & WOW!!! Simple science experiments for young children", and "The Importance of Early Experiences: Strengthening the foundation that supports the house of higher learning!"

Seminar #2: January 24, 2009

Speaker: **Juanita Copley**

Topic: **Preschool Math**

Juanita Copley, Ph.D. is a Professor at the University of Houston and currently serves as an advisor for the National Head Start Bureau in Washington DC, working with their new mathematics initiative for young children. She has written and edited four books about early childhood mathematics, three that were co-published by the National Association for the Education of the Young Child (NAEYC) and the National Council Teachers of Mathematics (NCTM). She has also authored several national mathematics programs published by Houghton Mifflin and McGraw Hill. She has also served as a mathematics consultant for a new PBS series involving Curious George and His Adventures in Mathematics. Her presentation, "Mathematics for the Young Thinker: Prekindergarten Experiences for the Young Child", introduces a wide variety of experiences for circle time, small group teaching, transitions, and center times to promote mathematical thinking.

Seminar #3: March 21, 2009

Speaker: **Julie dos Santos**

Topic: **Music for young children**

Julie dos Santos has been an early childhood educator for over 14 years. She began her career as a Pre-K teacher, then moved into Child Care Management, and then began freelancing as a music and movement teacher and storyteller. She has worked as a preschool teacher for organizations such as Childtime Children's Center and the Johnson Space Center's (NASA) private school located in Houston, TX. She and her husband also owned an educational consulting company, Scholastic Ventures, Inc. in Houston, TX. Julie loves working with children and their families. She has a passion to bring joy and wonder back to education. Julie believes that learning should be fun and exciting, and it shows in her teaching. Julie holds a current CDA (Child Development Assoc.) and is certified in Child Care Business Management. She will present ways to incorporate music and movement into daily classroom activities.
